Staff to door test

1st September 2017

Please note that this coming Friday morning we will be conducting a 'Staff to Door' drill.

This is instead of a full evacuation so as not to inconvenience yourselves too much so we would appreciate your co-operation in this drill.

It is a Health & Safety test that is a requirement of the managing agents Savills, the drill will be logged and all its participants.

Please be advised, it will only be announced over the BARC radio system and not throughout the shopping centre, this procedure only requires you to send one member of your staff to your shop door and make themselves aware to either a security or cleaning member of staff that they should see awaiting in the shopping mall.
